

MSite Workforce App An overview

A new, integrated digital solution that will help your construction sites to open and stay operationally safe for your workers.

Watch the MSite Workforce App video here

<http://tiny.cc/msitevideo>

- We want to put MSite into the hands of every worker – empowering the workforce to reach new levels of safety and productivity
- Our solution is low cost, high-impact and fully integrated into MSite
- The digital workforce productivity platform will increase safety and productivity in construction through **the digitalisation of people and processes**.
- And this is only the beginning. The **Productivity Revolution** starts here.

Functionality

Contactless Site Entry

- The biometric authentication on the worker's own phone is used for ID verification
- Once verified, the worker can use their phone as a virtual contactless card (similar to Apple or Google Pay)
- The worker presents their phone to an MSite reader to enter site

Social Distancing Reporting

- Bluetooth technology is used to monitor social distancing

Direct-to-Worker Notifications

- Important messages can be sent to and received by workers instantly

MSite Dashboards and Reporting

- The MSite Workforce App is **fully integrated into MSite**, digitally capturing access, time and attendance for reporting

Additional Information

- Can be used on any Apple (iOS v9 and above) or Android phone (v6 and above)
- In most cases, contactless entry via the MSite Workforce App will work with existing deployed MSite hardware.
